

Outdoor detectors

DT16 outdoor volumetric detector

The blind-effect double technology DT16 outdoor detector features **8 metre range, blind protection** and **anti-masking function**. IT is suitable to protect the access points along the external house perimeter. Two optional accessories (bracket or joint) can be used depending on the application

DT16 item no. 80IM3700113

Double-technology outdoor detector, blind protection, anti-masking function

- Power supply: 12 Vdc
- Range: 8 m
- MW & PIR double technology
- Absorption: 20 mA
- Micro-wave: 24 Ghz
- Infrared lens anti-masking
- Crossing function
- AND operation
- Temperature balancing
- Response time: 3 sec.
- Operating temperature: -10 ° + 55°C
- Tampering: 100 mA@30V
- Protection class: IP61
- Dimensions (W x H x D) mm: 44 x 110 x 46
- EN50131-2-4 class 2 CERTIFIED 

90° BRACKET item no. 80SP4D00113

Bracket for DT 16

- Assembly from both sides (LH or RH)

BALL JOINT item no. 80SP5D00113

Ball joint for DT16

It allows wall corner and ceiling installation and the orientation adjustment option.
