

Easy Door Controller is an access control system for small residential applications. It is used remotely as read-write mode using an encoder and an internet connection on www.easydoorcontroller.com. With our free web software really easy to use, manage your keys up to 50 doors /site.

For remote management you simply have to :

- 1-Note the n° of the install controller (written on top label)
- 2-Register on www.easydoorcontroller.com
- 3-Program the keys using the encoder which records into the key one or several n° of allowed doors.

To remotely delete permissions for a key, you must simply cancel that key on the website and program a new key; At the first use of the new key on the controller, the old key will be blocked instantly.

Technical characteristics

			
13.56 MHz	1 door	1 to 2000 users	Programming via web software

- Dimensions (L x H x D): 70mmx75mmx19mm
- Remote programming with an encoder and an internet connection
- Wiring: 2 wires / 100m max
- Power supply: 12/24 Vac or vcc
- Control relay NO / NC
- Adjustable lock release time from 1 second to 99 seconds
- Removable terminal connections
- Operating temperature: -20 ° C to +60 ° C
